Experience

Library Director, Sept 2006 -

Mars Hill Graduate School, Seattle, WA

Responsible for representing & coordinating library services to the faculty, administration, staff, and students of MHGS. This includes assessing the information needs of the MHGS community, designing and maintaining a library that fulfills these needs in a timely manner, and ongoing evaluation of library services. Teaching responsibilities include instruction in effective research skills, information and information retrieval skills in the classroom setting, on a one-by-one basis, and through media. Specific duties also include creation of policies and procedures for library services, maintenance of the library's web pages, collection development, tailored reference services, and the hiring, training and supervision of library staff. Serve on various academic and accreditation committees.

Manager, Library & Medical Photography Services, 1998- 2006

Swedish Medical Center, Seattle, WA

Responsible for the overall management of Swedish Medical Center's Library Services, including the supervision of 4.0 FTE staff at two campus libraries and the Medical Photography & Illustration department. Responsible for the evaluation, acquisition and provision of print and non-print library resources. Work collaboratively with Information Systems, Continuing Medical Education, Nursing Education and other departments to provide online access to information resources for all physicians and medical center staff. Evaluate current library processes for quality, appropriateness and cost-effectiveness. Work with library staff to improve services and effectively use financial and human resources. Conduct needs assessments and customer surveys to evaluate access, resource usage, collection and services. Develop and teach in-services on the use of library resources and other topics as identified. Serve on the Continuing Medical Education (CME) and Intranet Site Architecture Committees.

Senior Medical Librarian, 1995-1998

Providence Seattle Medical Center, Seattle, WA

Responsible for the daily operations of the Horton Health Sciences Library & Learning Center. Administrative duties included supervision of professional and technical staff, preparation and monitoring of annual budgets; updating of policies and procedures; and preparation of monthly activity reports. Professional duties included searching various databases for professional and consumer information; bibliographic instruction; creation and maintenance of the library's Web page; maintenance of the library & learning center computers; acquisitions and cataloging. Committee responsibilities included the Medical Education & Library Committee and the Electronic Communication Committee (Web & Email policy development). Developed and presented monthly introductory & intermediate Web classes for the medical & hospital staffs.

Cheryl M. Goodwin, MLS

Medical Librarian, 1989-1994

Providence General Medical Center, Everett, WA

Responsible for the combined libraries of PGMC. Administrative duties included budgeting, policy & procedure development, performance evaluations, QA&I activities, activity reports and supervision of library staff and volunteers. Professional duties included literature searching, acquisitions, cataloging and bibliographic instruction. Also responsible for the coordination and provision of current awareness services, document delivery and interlibrary loan. Major accomplishments included the provision of end-user CD-ROM bibliographic databases and the introduction of Internet to the hospital as a result of participation in an NLM grant exploring the value of Internet in community hospitals.

Hospital Librarian, 1982-1989

St. Joseph Hospital & Health Care Center, Tacoma, WA

Responsible for both the initial development of the hospital library and the provision of library services. Accomplishments included the establishment of a core library collection, development of policies & procedures, relocation of the library, and the implementation of on-line literature searching. Other duties included document delivery, interlibrary loan, current awareness services, activity reports, and bibliographic instruction. Actively involved in the Medical Ethics Committee and in teaching CPR classes.
